Moscow

Dear friends,

I believe that Declared by UN "a year of shelter for homeless" - is about me, too. Time has come to create a Teleport in Moscow with <sup>all</sup> developed services; and if our twin brother somewhere in America will order us to play a story about his (Electronic screen) life - you can direct this request to us via E-mail, send Video-clips and we have enough authority to make a decision - to play or not to play.

All changed on January 9th, when American Clown Dr. Patch Adams showed up on a large screen and announced to millions of TV-viewers:

I am happy (next time he will return via spacebridge, live, to the same "black hole" and nobody here will be surprised... as nobody surprised that acad. A. Sachner is in Moscow again. So what?).

Please bring with you all videotapes about photophone exchanges (Orsney, Hammer, maternity house, etc)

and some symbolic money to pay for advertisement of these clips (put money on a bank account of Moscow Teloport). If you are paid - you exist. (Also, pls add some stuff for 3-year old kid, few video-tapes with Disney films, pack of jeans 36'x36', and couple of microphones). Yuri Lepsky asked to bring "AMERIKA" - script, even abridged. They accepted my proposal (based on a letter to Gorbachev here with attached) and are planning 100 days alternative programmes.

Steven has written an invitation to Electronic Cafe to play 14-episode video report about Sister-Cities.

I know for sure - When Sister-Cities will start daily exchanges - a world without weapons will become reality.

A model of a war is Declared, by ABC. To create Alternative image of our relationship (and much cheaper, than \$30 million dollars) - it is our challenge, Sir! Never ever we were so close to a final Victory! When you'll be here, you'll see it by your own eyes. Meanwhile be in touch daily via ~~the~~ new Answer-  
man. Joseph.
